Dear Parent/Carer,

As we plan for the delivery of our curriculum, we are looking to add to our suite of web-based learning resources.

Teachers have made decisions designed to assist students in their learning. Sometimes it is beneficial for the student to utilise services provided by third party web-based providers. Types of services provided by these service providers include online content creation, collaborative tools, online educational games and various administrative programs for tracking student assessment data.

Our school wishes to register with a number of web-based service providers that may require one or more password, username, email address, or birthday. Under current legislation we are required to advise you of the reasons for collecting the information, what will be done with it and who else may have access to it. Please rest assured that our efforts are always to respect the privacy of individuals. Below are the platforms we seek your approval for.

Please be aware that these platforms can constitute a major part of the teaching and learning programs including assessment, and that your child's exclusion from using the platforms may limit their learning opportunities in their classes.

Please indicate your consent/non-consent for each of the services listed by completing the attached green form and circling consent or non-consent as is your preference.

The Education Directorate has a privacy policy that explains how we handle personal information, including how we handle privacy complaints. The policy is available on the Education Directorate's website on the [Publications and Policies](#) page

Yours sincerely,

Barbara Monsma
Principal
